How to Batch Cut Half Square Triangles with Faith Hale

Chapter 1 - How to Batch Cut Half Square Triangles

Overview

- Half square triangles are the foundation for many traditional quilt blocks. In this class, we'll learn how to batch cut them. We'll cut them two at a time, four at a time, eight at a time, and 16 at a time. This will make the process so much faster. I'm Faith Hale. I'm a crafter and a lazy quilter, and I love a good shortcut.

Cut two half square triangles

Cut four half square triangles

Cut eight half square triangles

Cut sixteen half square triangles
